Copy of letter from the Superintendent, Southern Circle, Survey of India, to the Secretary to the Government of Madras, Revenue Department, No.662, dated Bangalore, the 23rd March 1922:-

Subject:- Mysore-South Kanara Boundary Settlement.
Reference:- G.O.No.Mis. 2723, dated the 7th December 1921.

I enclose herein a copy of letter No.149, dated the 10th March 1922, from Mr. V.W. Morton, on deputation and request that sanction may be accorded to continue work up to end of May 1922 inclusive of preparation of necessary maps and report. It would appear from Mr. Morton's letter that not even half the total length of the boundary has been demarcated up to date, since however the most difficult portion has been done, it is hoped that one more field season will complete the work.

Enclosure.

Letter No.149, dated the 19th March 1922, from Mr. V.W. Morton, Extra Assistant Superintendent, on deputation, Mysore-South Kanara Boundary Settlement, to the Superintendent, Southern Circle, Survey of India:--

Subject:- Extension of period of deputation.

Reference:- Southern Circle Order No.402, dated 5th January 1922.

I have the honour to request that sanction may be obtained from the Surveyor-General for the extension of the period of deputation for a further 1½ months of myself, two Lower Subordinates and 10 menials.

Last season the field work was closed about the 23rd April, when the rains made it impossible to work later and the party actually broke up at Bangalore about the 15th May. I propose to close work this season about the 25th April, by which time I hope to have completed the identification and demarcation of the boundary as far as Kudre Mukh. The total length of boundary completed during the field seasons 1920-21 and 1921-22 would amount to 77 miles. There still remains about 130 miles of boundary to be gone over and in this connection I would like to point out that the Mysore-South Kanara Boundary Settlement will run into yet another field season, the most difficult portion will have been already completed.
